

## PART B - UNITY IN PRACTICE

### Re-Constructing The Global Order

With this goal in mind, therefore, the following, geopolitical adaptations, might well be put into practice, while the concept of Oneness is becoming commonly accepted, such as:

the formation of a democratically constituted, One World Transition (OWT) Parliament, based on a fair and equal federation of all Nation States (in place of The United Nations which is "beyond repair");

the establishment of an International Court of Law "whose decisions are binding to settle disputes, other than, as now, by military might and killing - a sure sign of our current extraordinary immaturity";

the maintenance of "a world peace keeping force to guarantee that no Nation can ever attack another";

the granting of permission for each Nation State to "keep its internal peacekeeping police", for the time being, until we have all become more 'grown up and self-regulated';

the dismantling of all "national armies and their weapons of offence and defence," accompanied by the redeployment of all those involved in the business of warfare to life-enhancing activities, such as looking after the needy and educating our offspring in a suitable manner;

the transference of the vast amounts of money saved, "currently running worldwide at a million dollars

per minute," to humanitarian purposes, such as ensuring that all people are able to 'survive with dignity';

the introduction of visibility into all financial dealings "so that everyone might know everything about everybody's money situation";

the replacement of all currencies by a new 'OWT' international, monetary system, that is "wide open, totally visible, immediately traceable and completely accountable";

the establishment of a minimum and maximum wage/salary with contributions above the upper limit to 'A World Charitable Trust';

the making of arrangements for "the reconciliation of all previous divisions between individuals, groups

and Nation States via initiatives and projects involving restoration, reparation and reunification”;

the encouragement of all religions and creeds to bring themselves up-to-date, according to the latest scientific and spiritual findings concerning 'Us, The Universe and Their Origins', and become 'at one with each other';

Should, therefore, <sup>2</sup>these (and any other similar) amendments be carried out, at a global level, not only would 'A United World' come into existence but also an appropriate environment within which 'An Elevated Civilisation' could be introduced. (See Parts C and D.)

<sup>2</sup>References for all of these 'recommended changes in direction' - and more - can be provided.
